**Message from the Principal:**

- Netball and Soccer Festival on 11 April from 8am.
- End of Term 1 Newsletter and Term 2 Calendar out on 11 April

# From The Sports Desk

Without pre-empting the powers that be, I would like to say that this is most likely the sports department's last communique to you. Having said that then, allow me to delve into a number of issues that may be pertinent to the start of sports next term.

Let me start off with the arrangements for the end of term. Please note that we will not have extra murals for the three days next week. In addition, we will hold out end of term Inter-house Soccer and Netball Festival. The festival will start at 8 am and end at about 12 noon. We will have both soccer and netball matches. In the true spirit of a festival, all pupils will be free to play either sport. However, unlike in other years, it will not be compulsory to for boys to play netball and for girls to play soccer. Children are to come to school dressed in their house t-shirts and either a black short or green short. As far as footwear is concerned, only takkies are allowed. If boys bring soccer boots, the will be asked to take them off. Shin pads are necessary to play soccer.

As far as the arrangements for next term are concerned, the extra murals programme has been finalised and will be communicated to you in due course. However, as a sneak preview, Monday will be for soccer practices and cross country meets, Tuesday will, as usual be dedicated to the external extra murals, Wednesday will be set aside for netball practices and soccer matches while Thursday will be used to play netball matches and cross country practices. Mini netball festivals will be held on Fridays at various schools around us.

We have also just about finalised our fixtures for the whole term and you will receive letters that advise you of the requirements for the each code as soon as we have done our selections. On that note, please allow us the privilege of being able to select pupils we feel can best represent the school for particular sporting codes. This is because we are now in professionally run leagues where we have to meet certain criteria if we are to continue to enjoy our stay in those leagues. For instance, we cannot cancel fixtures because we don't have enough children to participate in the fixture. That will compromise our future participation.

To wrap up, if I do not get another chance to chat to you, allow me to wish you a restful break, even if it is just from the morning traffic.

Have a great week!

Yours in Sport

O. Ngwenya (Mr.)
Sports Coordinator
Cedarwood Preparatory School
